DIARY NOTES

25X1A

DD/S

R

24 October 1962

25X1A

1. Jim Garrison talked to me about space this morning, and I told him to go ahead and latch onto all of the space at the [REDACTED] that he could. If it turns out that we don't need this space or don't want it, others will gladly grab it.

2. Jim reported that, while there are lots of problems in connection with [REDACTED] he thinks that things are going along well. He is going to have a meeting on Friday, 26 October, with all interested components to double check all aspects of our master plan.

* * * * *

3. Having been advised by [REDACTED] that [REDACTED] has been retired with 100 per cent disability, I have asked John Tietjen to look into this matter and advise me as to Tom's capability to continue with CIA.
